

THE BOND QUESTION.

Secretary Carlisle, in answer to the resolution of Congressman Bailey denying his authority to issue bonds, has sent to the Judiciary Committee a communication in which he says that since the last bond issue the Treasury has redeemed \$90,000,000 of greenbacks, and paid gold to redeem \$80,000,000 of Treasury notes, and that, therefore, he has the right to sell bonds for \$150,000,000 to replenish the gold reserve used in these redemptions. A similar claim was asserted by his predecessor, Secretary Foster, who insisted that he could either re-issue the greenbacks redeemed or sell bonds to replace the gold used in the redemption, but President Harrison negated the proposition.

Ex-Secretary Foster says the report that he had plates made a year ago for a bond issue which President Harrison opposed is not true. He favored a bond issue in case the gold reserve went below \$100,000,000, but it did not do so. He declares President Harrison never discussed the point, but he is under the impression that he would have favored it had the reserve fallen below the fixed amount. Ex-Secretary Foster says in his view the law did not contemplate the sale of bonds to meet current expenses, but that the Secretary undoubtedly has authority to sell bonds to replenish the reserve. He can do that, then pay out the gold for current expenses, and sell more bonds to bring up the reserve again, though in his opinion this would evade the spirit of the law.

It appears that goldbug ideas and methods are the same whether the goldmen are Democrats or Republicans. Secretary Foster did not think of redeeming greenbacks or Treasury notes in coin—gold or silver—as the law authorized him to do, nor of reissuing greenbacks, as he says he had authority to do. He was ready, however, to issue bonds had the gold reserve fallen below the fixed limit. Secretary Carlisle followed the example of ex-Secretary Foster, and paid out gold to redeem the Government's paper obligations, when he had authority to pay those obligations in standard dollars and to coin such dollars for that purpose. To reissue greenbacks or coin dollars would expand the currency, and as the Wall Street gang are opposed to that and in favor of issuing bonds, the bonds are to be issued.

A CHANGE OF FRONT.

The Legislature of California which re-elected the late Senator Stanford to the United States Senate was overwhelming Republican. Both Houses of that body memorialized Congress to abolish the duty on grain bags, giving among other reasons for doing so, that the local manufacture was insignificant as compared with the demand and that the duty did not increase the local product nor the wages of those employed in the bag factories, and only resulted in an increase of the price of bags to the consumer.

Congressman S. G. Hilborn, who represents the Third District of California in the present Congress, is reputed to be the author of the memorial passed by the California Legislature in favor of free grain bags. He now opposes in Congress what he recommended as a member of the California Legislature and favors a high tariff on jute sacks. The *Examiner* says several one of the seven counties in his district has a large farming population to which cheap grain bags are a vital necessity, but he ignores their interests and appears in Washington solely as the representative of L. P. Drexler's jute mill.

Mr. Drexler was formerly of this State. He went to California and engaged in the manufacture of grain bags. Though a Democrat of the most pronounced type while in Nevada, he became a protectionist when he engaged in the jute business in California, and opposed the election of Cleveland in 1888. In 1891 the California Legislature, which was three-fourths Republican, adopted the memorial to put grain bags on the free list. That caused Mr. Drexler to threaten to change front again and oppose the election of Mr. Hilborn to Congress. To prevent this and secure the influence of Mr. Drexler, it seems that Mr. Hilborn pledged himself to oppose the resolutions which he is credited with drafting and which were adopted by a Republican Legislature, and he has completely changed front to carry out the contract.

THE SILVER QUESTION IN GERMANY.

Herr Von-Haden, German Minister of Agriculture, when asked what measures the Government intended to take to relieve the present agricultural distress, said the object of the inquiry instituted by Chancellor Von Caprivi was the transfer of the currency question from theoretical discussion to the domain of concrete proposals. The point to consider now is to restore silver, or at any rate to raise the price, Herr Koeh, Director of the Bank of Prussia, differed with those who thought agricultural improvement would follow a settlement of the currency question, and warned his hearers against wrecking the gold standard.

The financial question is causing uneasiness in Europe as well as in the United States. The depression in business, caused by the adoption of the gold standard, is felt there as here. The German agriculturists favor the double standard, as farmers do in the

United States, but the Director of the Bank of Prussia is a confirmed goldbug, as is the financial agents of that Government here.

A FIGHT IN CHURCH.

Highbinders Have a Lively Time in Denver.

PUGILISTS TO BE ARRESTED.

Evans and Morrell Said to be in Lower California.

THE TARIFF BILL.

The Last Week of Debate—Its Passage Expected.

WASHINGTON, January 22.—There will be but one more week of tariff debate in the House. Next Saturday ex-Speaker Reed will make the closing speech for the Republican side, and Chairman Wilson of the Ways and Means Committee will wind up for the Democrats. Speaker Crisp will also talk for an hour in behalf of the Wilson bill on Saturday. Debate will close on Saturday night in a blaze of glory, so to speak, and on Monday a vote will be taken.

The outlook is that the bill will pass by a handsome majority. During the present week, however, the Democratic leaders in charge of the measure will be obliged to overcome many obstacles. Amendments will be offered to certain provisions in the bill, many of them by Democrats, and some of them will come very close to carrying. Chairman Wilson is still very hopeful of the ultimate success of the measure which bears his name, and so are other Democratic members on the Ways and Means Committee.

HIGHBINDERS IN A CHURCH.

They Attack a Chinese Sunday-School Class in Denver.

DENVER, Col., January 21.—The unusual spectacle of a Chinese high-binder fight in a most fashionable church in Denver was witnessed to-day. The Trinity M. E. Church, presided over by Dr. McIntyre, has a Chinese Sunday-school class of over fifty, who are spiritually cared for by eight church and society women, and Dr. Stenhouse as Superintendent. This afternoon Charley Hong asked permission to address the class in Chinese. He was permitted to do so, and no sooner had he concluded than he jumped into the center of the excited mongrels and the fight was on.

The women teachers and the spectators fell pell mell when they saw what was up, leaving the entire church to the fighters. Knives and other weapons were used. Y. T. Fong, the former interpreter at the Sunday school and his brother were the chief objects of the attack. The former was badly used up. The church people say it was the work of highbinders who are organized to break up the Sunday-school class.

To Arrest the Pugilists.

JACKSONVILLE, January 22.—Among several attorneys of this city the opinion that Governor Mitchell intends an important move on the morning of the 25th is gaining strength. They have an idea that instead of preventing the fight by means of militia the Governor will order the arrest of Corbett and Mitchell on a charge of arranging for a fight, which Attorney General Lawlor holds comes within the law prohibiting duels. Should they be arrested on the morning of the 25th it would necessitate the postponement of the battle for one day at least and the men would undoubtedly be put under heavy bonds to keep the peace until the courts decided the legality of the matter. This would effectually put an end to the contest. In case it was decided the fighters were within the limits of the law it is not probable the contest would take place as the men would be out of condition and the crowd gone.

Evans Said to be in Mexico.

SAN DIEGO, January 22.—If advice received by Sheriff Ben Hill are correct Evans and Morrell are probably now far in the wilds of the peninsula of Lower California. The advice are from a thoroughly reliable source and from parties that could have no possible object in misleading the officers. Under-Sheriff Crenshaw received a telephone message from Escondido this morning stating that two men answering the description of Evans and Morrell had been seen the day before. The information came from ex-Sheriff Oravath, who said he had learned that the men were seen in Keyes canyon, about eight miles to the north-east of Escondido, by a school teacher named Ross who was teaching school in the canyon.

Dr. Talmage to Resign.

BROOKLYN, January 22.—The Rev. T. De Witt Talmage at the close of his sermon at the Tabernacle last night made the announcement that he intended to resign from the pastorate of the church, the resignation to go into effect on the occasion of the twenty-fifth anniversary of his taking charge of the Tabernacle. No intimation had been given by Dr. Talmage, and the announcement was a surprise to the congregation.

The Big Tunnel Pierced.

SAN LUIS ONSRO, January 22.—The great tunnel through the Santa Lucia mountains, which the Southern Pacific Company has been boring for more than a year past, has been pierced. It is nearly 4,000 feet long and one of the largest and most important tunnels in the world. This is the third finished of the seven tunnels which the railroad had to make to complete the line to this point. The remaining four are short ones, and all will be finished before March 1st.

IRRIGATION VS. RAINFALL.

Judge Greenhalgh Suggests That the Products of the Arid Region be Pooled at the Fair.

Sometime ago Judge A. H. Greenhalgh of Nye county suggested that the arid regions of Nevada and California pool their exhibits at the Midwinter Fair and show Eastern visitors the superior quality of cereals, fruit and vegetables raised by irrigation as compared with those produced in rainfall localities. For some reason the management did not think it expedient and only one California newspaper, the Bishop Creek Register, favored a joint exhibit with Nevada. Inyo county, in which Bishop Creek is located, made no appropriation for an agricultural exhibit and only appropriated \$125 for a mineral exhibit so Nevada could not gain much by making a joint exhibit with that county; Lassen and Modoc counties, California, which like Inyo county have more in common with Nevada than with California, preferred to send their exhibits to the California building, so Nevada from choice of necessity has to make its own exhibit.

Judge Greenhalgh writes that Nye county exhibitors have been afraid to ship vegetables lest they should freeze on the way, but they hope to be able to show up to advantage on Nevada Day. He has some samples of potatoes boxed and ready for shipment, and, weather permitting, will take them to Austin in a few days.

The Judge also writes that the winter has been mild, though snow has covered the ground in the vicinity of Junction since before Christmas. Some ranchers are feeding their poorer cattle, but only one small bunch of steers is being fed for beef in Smokey valley this winter.

Beware of Ointments for Catarrh that contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous membrane, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Creases in Drawing.

Creases in drawings, engravings, etc., may be leveled out by following these instructions: Fasten the engraving or drawing by drawing pins on a board, face downward on a sheet of paper; on the back place another sheet of paper which retains a very slight quantity of moisture. Over this place flannel or blotting paper, and taking a blot from pass it carefully over the part where the creases have been made until they disappear, and then submit the drawings or engravings to pressure between printer's glazed boards.—Brooklyn Eagle.

We Like Olives.

This country has been within three decades one of the most important olive producing countries of the world. When olives were first imported into the United States, they were a luxury of the rich. They are still consumed in cities rather than in the country districts, and New York, with its great population of people from the Mediterranean regions, is of all American cities by far the greatest consumer of olives.—Chicago Herald.

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

WOOL-GROWER'S ASSOCIATION.

The Text of a Petition Which is Being Generally Signed.

The Wool-grower's Association of Nevada is battling against putting wool on the free list, and killing the wool-growing industry in Nevada. The Association is circulating a petition, which is being generally signed, against the proposed change, and of which the following is the text:

To the Honorable Members of the Fifty-third Congress of the United States:

We, your petitioners, wool growers and business men of Nevada, regardless of party, would respectfully represent as follows:

As a result of the general belief that wool will be put upon the free list, its price has fallen the past twelve months from fifteen to six cents per pound, and the value of sheep from \$8 to \$1 per head. Under a free schedule, foreign wool of a character competing with that grown in this section can be laid down in Boston to-day for thirty cents per scoured pound. Allowing seventy per cent for shrinkage, our wool in the same market would be worth nine cents in the grease, and deducting eight cents, for scouring and marketing charges, will leave the grower a net value of not over five cents per pound—at least five cents per pound below the cost of the most economical production.

We see no reason to believe that if wool is placed on the free list there will be any advance in the price above submitted.

Wool growing is one of the most prominent industries west of the Missouri river, and a continuance of the present range of values for our main product, which may be fairly looked for under free wool, will bring ruin to the sheep industry in all the range country, and will spread loss and disaster to the mercantile and other interests dependent upon its prosperity. There are thousands of people directly dependent upon the wool interests—with free wool they will be compelled to seek a living and occupation elsewhere. In view of these facts, we, your petitioners, beg that your honorable body make no change in the wool and woollen schedules now in force.

THE WIDWINTER FAIR.

The Best Time for Outsiders to Visit It.

Arthur McEwen, in the Virginia Chronicle, has the following to say concerning Midwinter Fair matters:

The Midwinter Fair will undoubtedly be a fine thing in time. M. H. De Young is entitled to endless credit, of course, for having proposed it and given the exertions which have made its existence possible. There is a Senatorship in it for him. Nevertheless the Fair languishes. If half the exhibits are in place on the day of the opening, the 27th instant, it will be remarkable. The buildings are worth seeing, and some of the side shows are interesting, but anybody who comes from a distance to take in the Fair will feel cheated. And that will be true for a good while yet, in spite of all the newspaper drum-beating. It was a mistake to promise to have the show open on the first of the year; it is a mistake to pretend that the 27th will show a complete exhibition. Six weeks or two months hence, I should say, will be about the right season for outsiders to spend their money on a visit.

Whether the scandals attaching to the management that have got out, and the others that are talked of in private, will hurt the enterprise is hard to decide. There has been ugly work in letting some of the concessions, and persons connected with the direction haven't been too delicate to cash their checks. Secretary Bedlam of the Executive Committee still holds his office, notwithstanding the discovery that an employee and dependent of his has the concession for a fish restaurant that bars out an exhibit by the State Fish Commission. Lawyer Mitchell is still on the Committee, although he has charged each of the concessionaires \$25 for drawing up each contract with the committee. He insists that this is all right. But Chevalier Bayard wouldn't have done it in his place. Assistant General Manager Cornely is accused of feathering his nest, but he is yet Assistant General Manager. Further returns are expected daily. If the Fair shall close without the county jail becoming a supplementary headquarters for the more active managers, California will feel grateful.

DISTRICT COURT PROCEEDINGS.

The Case of the State vs. W. C. Pearl.

The trial of C. W. Pearl for assault upon Arthur DeWitt at the Calligan ranch near Pyramid Lake last October was begun yesterday morning in the District Court. Judge Boardman and T. V. Julien appeared for the defense and District Attorney Currier and O. A. Jones for the prosecution. A jury was impaneled and several witnesses examined upon both sides.

The State closed its case after the testimony of Miss Lila Calligan, who witnessed the trouble.

The main points in the case seem to be as follows: Pearl and DeWitt were both jealous of each other's attentions to the young lady. DeWitt declared that Pearl must leave the ranch and that he was not a fit person to be her associate. Pearl heard of it and accused DeWitt of maligning him. They had a fight during which DeWitt struck his opponent with a hammer. Pearl ran into the granary for a shotgun, while DeWitt started at a lively gallop for the house, some distance away. When about half-way there Pearl fired off the gun. On the witness stand he testified that he fired it into the air, both for the reason that a group of work horses ran between him and DeWitt at the time and because he did not wish to shoot his opponent, but to frighten him. DeWitt is, however, of the opinion that the gun was fired with homicidal intent, and testified that some of the shot grazed his neck.

The case was submitted last evening without argument by the counsel, and the jury after being out about ten minutes returned a verdict of not guilty.

The Chronicle says a Chinaman was assaulted and robbed by several young men in Virginia city last Saturday night. They threw powdered lime in his face, took two chickens, which he was carrying, away from him. They also grabbed his watch chain, but he held on to his watch and they tore the chain loose. The Chinaman cried for assistance and the young brigands ran off.

What Shall I Take?

Why Simmon's Liver Regulator, of course. It can't be beat in any attack of indigestion, biliousness, sick headache or constipation. It gives quick relief, and if continued for a while will completely cure these ailments. The Regulator comes in liquid and powder form. The powder is wonderfully convenient for the vest pocket. A pinch of the powder and a swallow of water leaves no taste and works effectually.

THREE-QUARTERS OF A MINUTE.

The Efficiency of the Engine Department of Our Fire Company Demonstrated.

A test was yesterday made of the efficiency of the engine department of the Reno Fire Company. As heretofore stated, Stanley Peek, who has charge of the engines of the Reno Fire Department, has been introducing a system of electric fire alarms. He has strung one wire between Hymers' stable and the engine-house, and at the latter place has a gong to sound the alarm. Precisely at 12 o'clock noon yesterday a person at Hymers' stable turned in an alarm of fire. At the first tap of the gong at the engine-house, Robert Jones, an uninterested party, who was selected as timekeeper, started his watch. Peter Winn, who has charge of the horses, sounded the alarm that called them from their stalls, and in just three-quarters of a minute from the time of the first tap of the electric gong the driver was in his seat with lines in hand, horses completely hitched and ready to start to the imaginary fire. The horses, however, were not driven out, as the streets are in a very muddy and slushy condition. This test speaks volumes for the efficiency of the engine department of our fire company.
